	QUESTION NO: 01	
$\rightarrow$	Difference between manufacturing	
	and Industrial sector.	
	A sector refers to a large	
	segment of the economy while the	
1, ~	term industry describes a much	-
	more specific group of companies.	
	Industries are created by further	
	more defined groupings.	
	The industries means the	1
	tendency to work persistently	
	diligence whereas manufacturing	
	nears the transformation of raw.	
	naterials into finished producte;	
	usually on a large scale-	
-	manufactoring ic a sub part of	

Annufacturing also has three sub- points or pout, these are small  scale manufacturing, large scale  manufacturing and slaughtering.  Industrial sector also has small,  large scale industries in which  manufacturing exist.  DUESTION NO. DZ  How we are managing our  industries during court-19  As the court-19 pandemic sweeps  across the globe, manufacturing  organizations face significant  operational challenges some comp-  anies have temporarily shuttered  factories in response to government  restrictions or falling demand, but  others are facing significant  increases in demand for essential  supposes.			
Manufacturing also has three sub-  points or part those are small  scale manufacturing, large scale  manufacturing and claughtering.  Industrial sector also has small,  large scale inclustries in which  manufacturing exist.  DUESTION NO. DZ  HOW we are managing our  industries during covid-sa  As the covid-1a pandemic sweeps  across the globe, manufacturing  organizations face significant  operational challenges some comp-  anies have temporarily shuttered  factories in response to government  restrictions or falling demand, but  others are facing significant  increases in demand for essential		industrial rector	
points or part, those are small  scale manufacturing, large scale  manufacturing and claughtering.  Industrial sector also has small,  large scale inclustries in which  manufacturing exist.  DUESTION NO. D2  How we are managing our  industries during covid-19.  As the covid-19 pandemic sweeps  across the globe, manufacturing  organizations face significant  operational challenges some comp-  anies have temporarity shuttered  factories in response to government  restrictions or falling demand, but  others are facing significant  inexpases in demand for essential			-
scale manufacturing, large scale  manufacturing and slaughtering  Industrial sector also has small  large scale inclustics in which  manufacturing exist.  DUESTION NO. DZ  How we are managing our  industries during covid-19  As the covid-19 pandemic sweeps  across the globe, manufacturing  organizations face significant  operational challenger some comp-  anies have temporarity shuttered  factories in response to government  restrictions or falling demand, but  others are facing significant inexpasses in demand for essential	-		
manufacturing and claughtering -  Industrial sector also has small;  large scale inclustries in which  manufacturing exist.  LUESTION NO. DZ  How we are managing our  industries during courd-19.  At the courd-19 pandemic sweeps  across the globe, manufacturing  organizations face significant  operational challenges some comp-  anies have temporarity shuttered  factories in response to government  restrictions or falling demand, but  others are facing significant inexpasses in demand for essential	and the same of th		-
Industrial sector also has small, large scale inclustives in which manufacturing exist.  DUESTION NO. D  How we are managing our industries during courd-19.  As the covid-19 pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some comp- anies have temporarity shuttered factories in response to government restrictions as falling demand, but others are facing significant increases in demand for essential			
Large scale industries in which  manufacturing exist.  DUESTION NO. D2  How we are managing our  industries during courd-19  As the courd-19 pandemic sweeps  across the globe, manufacturing  organizations face significant  operational challenger some comp-  anies have temporarity shuttered  factories in response to government  restrictions or falling demand, but  others are facing significant  increases in demand for essential			
DUESTION NO. D  How we are managing our industries during court - 1a.  At the course - 1a pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some comp- anies have temporarily shuttered factories in response to government restrictions or falling demand, but others are facing significant increases in demand for essential			
DUESTION NO. D2  How we are managing our industries during covid-19.  At the covid-19 pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some companies have temporarily shuttered factories in response to government restrictions or falling demand, but others are facing significant increases in demand for essential			1.2
How we are managing our industries during cours.  As the cours - 19 pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some companies have temporarily shuttered factories in response to government restrictions or falling demand, but others are facing significant increases in demand for essential			
How we are managing our industries during cours.  As the cours - 19 pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some companies have temporarily shuttered factories in response to government restrictions or falling demand, but others are facing significant increases in demand for essential		$\wedge$	
How we are managing our industries during cours.  As the cours - 19 pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some companies have temporarily shuttered factories in response to government restrictions or falling demand, but others are facing significant increases in demand for essential		SUESTION NO.	
industries during covid-19.  As the covid-19 pandemic sweeps across the globe, manufacturing organizations face significant operational challenges some companies have temporarily shuttered factories in response to government restrictions or falling demand, but others are facing significant increases in demand for essential
